

I'm an Early Childhood Educator

When you leave your child with me,
I understand they're your VIP.
So let me assure you with all I can,
I will be your child's biggest fan.
I will care for him when he cries,
Give her hugs and soothe her sighs.
I will give him time to explore and play,
I will be her advocate every day.
An early educator is what you can call me,
And yes I provide all this TLC.
But this is not all that I do,
This too I can promise you...
I will challenge him all of the way,
I will value what she has to say.
I will listen to him and give him a voice,
I will question her and give her a choice.
I will ask him what he wants to learn,
I will value her input at every turn.
I will not teach them how to do,
But allow them to work their own way through.
I will ignite in them a life long love,
For learning, investigating - all of the above.
This is my promise to you,
I'm an early educator - it's what I do!
